

FOR IMMEDIATE RELEASE

March 16, 2009

Salem, OR

RainSweet, Inc. of Salem, Oregon is pleased to announce that it has joined forces with Freeze Pack, Inc. of Pasco, Washington to expand and enhance its service to the IQF onion industry. RainSweet, with two decades of experience producing high quality product for food industry leaders, will move its onion manufacturing operation into the new state of the art facility built in Pasco by Freeze Pack.

The move will make RainSweet one of the most efficient processors in the industry. “This is the best onion processing plant in the Northwest,” said RainSweet president Mark May. “The facility was built from the ground up around the concept of fast, efficient onion processing. It is also second to none in terms of food safety. We believe this will add tremendous value for our customers.”

RainSweet will continue to operate its Salem facilities, but onion manufacturing will eventually migrate entirely to Pasco, Washington. RainSweet’s fruit and other vegetable operations will continue to be located in Salem, Oregon.
